Business Report

(From April 1, 2015 to March 31, 2016)

I. Matters Concerning the Current Status of the Corporate Group

(1) Business Progress and Results

During the consolidated fiscal year under review, although the global economy maintained a strong recovery in the United States and Europe, the economic slowdown in Asia's emerging and resource-rich countries, such as China, caused the sense of uncertainty about the future of the global economy to keep increasing. Given these economic trends overseas and the instability in exchange rates, the Japanese economy remained at a standstill.

In the electronics industry, the leading smartphone market suddenly slowed down due to the effects of heightened order and price competition, as well as of the market's maturity. Meanwhile, in the domestic IT industry, besides continued strong IT investment especially among large and medium-sized enterprises, there was a growing interest in services applying new technologies such as cloud, big data, or IoT (Internet of Things), which positioned the industry in relatively favorable conditions by the end of the fiscal year under review.

Under these circumstances, we committed to strengthening business power and to improving the management foundation, as well as we strove to improve sales and profitability. However, during the consolidated fiscal year under review, the Company experienced a significant sales drop in the device business that accounts for a large percentage of the Group's total sales, causing an overall downturn in consolidated results: net sales decreased by 9.1% to ¥199,075 million, operating profit fell by 41.3% to ¥1,913 million, ordinary profit was also down by 51.9% to ¥1,500 million, and net profit attributable to shareholders of parent company scored ¥977 million, down by 51.2%, all on a year-on-year basis. The return on equity (ROE) was 1.5% (3.1% in the previous fiscal year).

Consolidated performance by business segment for the term under review is as follows.

[Device segment]

In the device business segment, our leading products are semiconductors (including system LSIs, microcomputers, LCD driver ICs, memories, etc.) and electronic components (including connectors, capacitors, circuit boards, etc.). These products are sold mainly to electronics manufacturers. We also provide technical support, such as software development and module development.

In the consolidated period under review, following a rapid growth in the previous term, sales for social and industrial/vehicle-mounted systems saw a decline, on the same line as sales for digital AV devices. New businesses saw a lackluster performance against the backdrop of a sluggish growth in the smartphone market and the economic slowdown in China, which resulted in a substantial shortfall of sales for the information and communication sector compared to the initial plan.

As a result, segment sales decreased 9.4% year-on-year to ¥183,326 million. The segment loss rose to ¥96 million (compared to a profit of ¥1,470 million in the previous term), following the decline in sales, but also as we recorded foreign exchange losses due to the appreciation of the yen from the second half of the period.

Orders received totaled ¥174,823 million, while order backlog stood at ¥27,137 million.

[Solution segment]

In the solution business segment, we are committed to planning and developing infrastructure with operation of information communication networks at the core, mainly for private companies, government offices and local municipalities, as well as to ensuring its operation and maintenance. Especially, as for our core system, we offer services deriving from provision of package software, such as customization according to individual development. Furthermore, we also provide broadcast stations and production companies with editing and transmission of video content, as well as with distribution systems, centered on products from suppliers abroad.

In the current consolidated fiscal year, sales of embedded systems and portable video transmitters remained solid. However, compared to the previous term, where the replacement demand toward the digitalization of wireless communication for firefighting and emergency services had reached its peak, sales to public institutions were down.

As a result, segment sales decreased by 5.4% year-on-year to ¥15,748 million. Selling, general and administrative expenses rose due to expansion of personnel meant to strengthen our business power. However, the segment profit decreased by 3.0% year-on-year ending at ¥1,597 million, as gross profit margin improved. Orders received totaled ¥14,274 million, while order backlog stood at ¥3,892 million.

Note: Profit in each report segment is based on ordinary profit (loss).

(2) Capital Investment Activities

The total amount of facility investments made in this consolidated fiscal year was ¥282 million. The main investments were repair works of buildings and fixture renewal.

(3) Financing Activities

Loans from financial institutions were the main means of raising funds in this fiscal year, and there is no special item to be noted here.

(4) Future Challenges

(Basic management policies)

The Company's basic policy is to adhere to the corporate philosophy of "Trust, Principles and Sincerity" in order to earn reputation as "the Chosen" among general electronics trading companies to prove its value based on a wide range of solutions it provides to its customers and suppliers.

In the device business, in order to assist all client companies active in home appliances, automobiles and industrial devices operations in their efforts for globalization, the Company has been striving to establish overseas subsidiaries and provide goods and services, as well as it has been serving as a coordinator for its customers and suppliers through extensive product range and enhanced technological strength for suppliers' product development. Furthermore, in the solution business, the Company has been actively acting as a system integrator with information and communication network at the core of its contributions to clients' business development. Sanshin Electronics will continue to increase the Group's present value proving why customers and suppliers choose us. In managing its businesses, the Company will continue to fulfill its mission as a good corporate citizen by developing a system that enables diverse personnel to play an active role in the Company, as well as by continuing to reduce the environmental impact of its operations, just to mention a few actions.

(Target business indicators)

By establishing the return on sales (ROS) and return on equity (ROE) as the Company's important business indicators, we will endeavor to improve earnings.

(Basic policies for profit distribution)

The Company considers profit returns to its shareholders as one of the most important management issues. The Company's basic policy is to determine dividends by comprehensively considering the need to maintain a balance between rewarding of shareholders, investment to gain opportunities for growth, attainment of sufficient retained earnings to enable sustainable growth, and improvement in capital efficiency. Under this policy, the Company has set a target for its dividend payout ratio of around 50% on a consolidated basis.

(Medium-term business strategy and future challenges)

The Group has so far been implementing its V66 Medium-Term Management Plan to be closing on March 31, 2017. However, given the severe business results and sudden changes in the business environment, especially considering the need for a fundamental revision of the device business strategies, Sanshin Electronics has decided to formulate the new V70 Medium-Term Management Plan for a period of 5 years to be implemented starting with the 66th term, ending March 31, 2017. This plan aims to improve profitability in the device business segment through transformation of our business portfolio, as well as to establish higher revenue base in the solution

technologies, such as cloud computing. In an earnest effort to achieve all these, the Group will tackle the following challenges:

1) Strengthening of business capabilities

a. Rebuilding of revenue base for existing businesses (Device business)

The Company engages in improving profitability in semiconductor and electronic component businesses, by selecting the key products through strategy sharing with suppliers, and by developing a framework for their sale. Sanshin Electronics will also strive to broaden its customer base and build up a revenue base that can withstand the ever-changing business environment.

b. Enhancement of new business initiatives in the pursuit of expansion of business areas (Device business)

The Company will strengthen its commitment to create new businesses, such as system solutions that leverage both its hardware and software engineering capabilities, demonstrating the Group's added value. This way, Sanshin Electronics aims to increase the percentage of these businesses' revenue. As a result, the Company is thorough in selecting the targets for such sales promotion and establishing the selling structure, in developing new attractive products, as well as in building business models focused on market trends/needs.

c. Further enhancement of profitability in the 6 units (Solution business)

The Company divides the solution business into six business units: information communication networks, government offices, firefighting and disaster prevention, embedded systems, application software and image editing. Sanshin Electronics commits to increasing the personnel permanently allocated to these six units, to striving to expand its operations in stock businesses such as maintenance and management support services, and to deepening its relationships with clients across these business units (cross selling). All these initiative will likely establish a strong revenue base for each unit, and thus will enhance the Company's ability to respond to changes in the business environment.

d. Expansion of offerings to include cloud and IoT services (Solution business)

Cloud and IoT technologies have been drawing attention as they provide significant expandability for ICT solutions. Sanshin Electronics will create new offerings to suit progress in cloud computing and IoT services, which will be turned into a new revenue base. Therefore, the Company will allocate the necessary personnel to attain this pursuit, as well as it will continue to collaborate with partners of strong technical capabilities and sales network.

2) Strengthening of management foundation

a. Strengthening of corporate governance

The Company shall set the governance system needed to realize appropriate management decisions and strengthen oversight of operations, which includes increasing the number of external directors and, consequently, reviewing the organization and functions of the Nominal and Remuneration Advisory Committees put in place in February 2016, promoting the separation of the functions of the oversight of business and the execution of business, as well as reviewing the Board of Directors' regulations that stipulate the items subject to resolution and reporting in its meetings.

b. Strengthening of corporate staff members' competitive power to boost earnings

We must cultivate new markets, businesses and suppliers both in the device and solution segments. In this regards, an accurate assessment regarding risks and earnings is required to improve profitability. Consequently, the Company shall work on allocating new personnel, such as legal and accounting staff, in order to enhance the Company's personnel and legal support to new businesses.

V. Status of Accounting Auditor

(1) Name of Accounting Auditor

Deloitte Touche Tohmatsu LLC.

(2) Amount of Compensation

	Amount to be Paid
Compensation to be paid to Accounting Auditors for the fiscal year under review	¥44 million
Total of cash and other assets to be paid by the Company and subsidiaries to Accounting Auditors	¥44 million

- Notes: 1. Among principal subsidiaries of the Company, overseas subsidiaries were subject to audits by a person other than the accounting auditor who audits the Company (overseas certified public accountant or person equivalent to the qualification of audit corporation) (limited to an audit subject to a foreign law equivalent to the Companies Act or the Financial Instruments and Exchange Act of Japan).
2. The auditing contract between the Company and the Accounting Auditors makes no distinction between auditing services based on the Corporate Law and auditing services based on the Financial Instruments and Exchange Law. Since no real distinction can be made in practice, the amount paid represents the total amount.
3. As prescribed in “Practical Guidelines Concerning Cooperation with Accounting Auditors” released by Japan Audit & Supervisory Board Members Association, the Audit & Supervisory Board has verified the status of execution of duties by Accounting Auditors and their audit plan, and after considering the Company’s previous business results, has agreed with the provisions of Article 399, Paragraph 1 of the Companies Act on matters such as the compensation to be paid to Accounting Auditors.

(3) Policy concerning Decisions to Dismiss or Not to Reappoint Accounting Auditors

When there is any difficulty in execution of duties by the Accounting Auditor and their fulfillment is deemed necessary, the Audit & Supervisory Board shall determine the content of the proposal regarding whether to dismiss or not reappoint the Accounting Auditor to be submitted to the General Meeting of Shareholders. Furthermore, if the Accounting Auditor is deemed to fall under any of the items prescribed in Article 340, Paragraph 1 of the Companies Act, the Audit & Supervisory Board shall dismiss the Accounting Auditor based on consent of all Audit & Supervisory Board members. In this case, the Audit & Supervisory Board member designated by the Audit & Supervisory Board shall report on the dismissal of the Accounting Auditor and the reason thereof at the first General Meeting of Shareholders following the dismissal.

VI. System for Securing Appropriateness of Business Operations and the Status of Its Operation

(1) System for Securing Appropriateness of Business Operations

At the Meeting of the Board of Directors, the Company resolved the following system for securing compliance of directors' execution of duties in line with laws and regulations as well as with the Articles of Incorporation, but also for securing the appropriateness of the business operations of the Company.

1) System for Securing Compliance of Execution of Duties by Directors and Employees with Laws and Regulations and Articles of Incorporation

- The Company shall set the code of conduct in line with the company creed and philosophy where its directors and employees are required to comply with, and ensure that each and every director and employee is thoroughly informed of this code.
- The Company shall set compliance rules and establish a framework for compliance, including an internal reporting (whistle-blower) system.
- When detecting serious legal violation or other important matters concerning compliance, Directors shall immediately notify Audit & Supervisory Board members and report it at a meeting of the Board of Directors or a corporate management meeting without any delay.
- The Company shall set up an internal audit department that is independent from operational divisions and responsible for auditing the operational processes thereof in order to prevent and detect illegal acts and improve the processes.
- Audit & Supervisory Board members shall be allowed not only to attend meetings of the Board of Directors on a permanent basis but also to participate in other important meetings and committee meetings as necessary. In addition, Audit & Supervisory Board members shall regularly hold meetings to seek the opinions of Accounting Auditors.
- The Company shall stipulate explicitly the obligation to break off relations with antisocial forces in the code of conduct. Furthermore, it shall establish a department to handle such antisocial forces and take all necessary measures such as formulating a communication framework to contact the police and lawyers in the case of emergency, collecting and managing information, preparing regulations and manuals, and so on.

2) System for Storage and Management of Information concerning Directors' Execution of Duties

- Directors shall store and manage documents and other information materials concerning their execution of duties appropriately in accordance with the rules set by the Company.
- Directors, Audit & Supervisory Board members and employees at the internal audit department may access such information at any times.

3) Rules concerning Risk Management

- The Company has established risk management regulations, and clearly states the risks that it faces.
- Under the directions of its General Risk Committee, which is headed by the company president, the Company manages risk for the entire Group.
- As well as clarifying the supervisory department for each risk, the General Risk Committee sets up individual committees as required, and prepares systems for enabling swift and effective responses to be made when risks arise. Also, the Company formulates a Business Continuity Plan (BCP) that assumes the occurrence of a large scale earthquake related disaster.
- The General Risk Committee makes reports to the Board of Directors, as necessary, on the state of responses being made for risks that have arisen.
- Regarding potential risks requiring response, after assessing these, the General Risk Committee reviews the effectiveness of the risk policies and associated management systems, and then reports on their findings to the Board of Directors.

4) System for Securing Efficiency of Execution of Duties by the Group's Directors

- The Company shall hold a regular meeting of the Board of Directors every month and hold an extraordinary meeting of the Board of Directors as necessary.
- In addition, the Company shall regularly hold a corporate management meeting with the participation of Executive Directors, Full-time Audit & Supervisory Board members and others, for which sufficient deliberations shall be conducted in advance on particularly important matters to be determined by the Board of Directors.
- With regard to the execution of operations based on decisions made at a meeting of the Board of Directors, the divisions and officials in charge thereof as well as the execution procedures shall be determined based on the rules concerning the allocation of operational responsibilities and authorities. Furthermore, by similarly maintaining necessary regulations and providing execution proceedings for each subsidiary, the Company aims to streamline execution of duties by each subsidiary's corresponding director.

5) System for Securing Appropriateness of Operations of the Group

- All companies belonging to the Sanshin Electronics Group shall be required to comply with the Group creed and philosophy, the code of conduct and the compliance rules, and the Company shall ensure that directors and all employees of its subsidiaries are thoroughly informed. Each subsidiary shall maintain necessary regulations for itself based on the above rules.
- The Sanshin Electronics Group as a whole, including subsidiaries, shall implement measures to cope with the serious risks. Each subsidiary shall maintain necessary regulations for itself based on the above rules.
- Subsidiaries are required to obtain prior approval from and submit reports to the Company with regard to important matters as specified in the rules concerning the supervision of subsidiaries and affiliated companies.
- The Company shall regularly provide directors and employees of subsidiaries with opportunities to have the Company's Directors and Audit & Supervisory Board members reporting on the execution of their respective duties.
- Audit & Supervisory Board members shall conduct necessary audits with regard to subsidiaries, too.

6) Systems for Ensuring the Reliability of Financial Reporting

- To ensure the reliability of the Group's financial reporting and the effective and appropriate submission of the internal control reports, the Company shall set the Internal Control Management Regulations and introduce the framework to evaluate the effectiveness of the internal control system on a regular basis and to correct inadequacies, if any.

7) System for Accommodating Audit & Supervisory Board members' Requests for Assistant Employees and Independence of Said Employees from Directors

- Audit & Supervisory Board members shall be given the authority to issue instructions to the internal audit division with regard to matters necessary for their auditing activities.
- Concerning instructions received from Audit & Supervisory Board members with regard to matters necessary for their auditing activities, employees at the internal audit department shall not be bound by the chain of command leading down from Directors.
- The Company shall respect the Audit & Supervisory Board members' opinions with regard to matters related to the appointment, transfer, evaluation, disciplinary actions and so forth, of the employees at the internal audit department.

8) Systems for Reporting by Directors and Employees to Audit & Supervisory Board members and for Securing Effective Audits by Audit & Supervisory Board members

- Audit & Supervisory Board members shall be given the authority to request necessary reports from directors and employees at any time.
- The Representative Directors shall provide the Audit & Supervisory Board members with opportunities to exchange opinions with them regularly.
- The internal audit department shall make sure to submit reports to Audit & Supervisory Board members after conducting audits of operations, etc.
- The Company shall establish an appropriate system for the reporting of matters concerning compliance, such as legal violation, to Audit & Supervisory Board members by setting compliance rules.
- Any disadvantageous treatment given to directors and employees who contribute through reports to audits by Audit & Supervisory Board members, or to directors, corporate auditor and employees of subsidiaries is prohibited.
- When Audit & Supervisory Board members request to the Company the payment in advance for the expenses related to the execution of their auditing duties, the Company shall pay such costs or amortize the liability immediately. Moreover, in order to pay the expenses incurred in the execution of duties by Audit & Supervisory Board members, the Company shall allocate a certain amount of budget each year.

(2) Outline of the Status of Operation of the System for Securing Appropriateness of Business Operations

The status of operation of the system for securing appropriateness of business operations is shown as below.

- The Company has set a code of conduct its directors and employees are required to comply with, and is currently taking thorough measures to make this code known by everyone at the training for new employees, as well as through periodic publications in the Company's newsletter, postings within offices, or by distributing cards internally. Furthermore, in order to assess the implementation status of this code of conduct, the Company will conduct an employee questionnaire every year beginning from the fiscal term under review. The results of the questionnaire are reported to the Board of Directors and the degree of awareness toward the code of conduct is confirmed.

- The Company has established internal reporting regulations which define items including confidentiality of whistle-blowers, prohibition of disadvantageous treatment of whistle-blowers, and prohibition of handling of reported incidents by individuals who are personally involved in said incidents. The Company operates an internal reporting system. Furthermore, in order to strengthen independence from management, the Company will include all Audit & Supervisory Board members in the reporting contact point beginning from the fiscal term under review.
- Audit & Supervisory Board members shall attend the meetings of the Board of Directors. Furthermore, Full-time Audit & Supervisory Board members shall attend management and executive committee meetings, management strategy meetings and other important gatherings on a permanent basis. In addition to holding deliberation with Accounting Auditors at the beginning of the fiscal term under review in order to formulate an audit plan, Audit & Supervisory Board members meet periodically and as necessary, and are present during the performance of accounting audits as necessary.
- The Company has established an Auditing Office as its internal auditing department. Currently, three dedicated staffs are stationed at the Auditing Office as of the date of creation for this business report. After conducting an operational audit, the Auditing Office submits an auditing report to the Representative Directors and to Audit & Supervisory Board members. Furthermore, the Audit & Supervisory Board members and Auditing Office hold meetings as necessary. Audit & Supervisory Board members gather information from the Auditing Office; for example, requesting reports on the status of the internal control system and related auditing results. Audit & Supervisory Board members also provide instruction and recommendations to the Auditing Office. The transfer of employees assigned to the Auditing Office during the fiscal term under review was conducted based on the opinions of Audit & Supervisory Board members.
- The General Risk Committee makes reports to the Board of Directors, as necessary, on the state of responses being made for risks that have arisen. Also, regarding new risks requiring response, after assessing these, the General Risk Committee reports on the effectiveness of the risk policies and associated management systems to the Board of Directors once a year.
- During the fiscal term under review, ordinary meetings were held 13 times, and extraordinary meetings were held once.
- During the fiscal term under review, the Regulations of the Board of Directors were revised and the scope of matters to be resolved by the Board of Directors was narrowed to legal matters and fundamental matters of the Company (corporate code of conduct, corporate philosophy, code of conduct, establishment/revision of basic management policies and management plans, items related to corporate governance, transfer of important personnel such as executive officers, disposal/transfer of important assets, etc.). Other matters shall be delegated to corporate management meetings and executive directors, and action shall be taken in accordance with rules. In regards to the executions of said actions, executive directors shall report to the Board of Directors as necessary. Through these reports, the Board of Directors shall supervise the decision-making and business operation of executive directors.
- Full-time Audit & Supervisory Board members of the Company are concurrently serving as Audit & Supervisory Board members of the Company's subsidiaries, where they perform necessary audits.
- In accordance with the Internal Control Management Regulations, the Internal Control Committee meets once every quarter. In order to evaluate the effectiveness of internal controls at the Company, the Internal Control Committee considers the self-assessment results of self-inspection and the results of independent evaluation by the Auditing Office. Results are reported to the President.
- Representative Directors meet periodically with Audit & Supervisory Board members and an External Director in order to exchange opinions. Furthermore, separate meetings are held between Audit & Supervisory Board members and an External Directors in order to exchange opinions.

Notes to Consolidated Financial Statements

(Notes on the Basic Important Points for Preparing the Consolidated Financial Statements of This Term)

1. Scope of consolidation

Number of consolidated subsidiaries: 8

Names of companies:

SANSHIN ELECTRONICS (HONG KONG) CO., LTD.
SANSHIN ELECTRONICS SINGAPORE (PTE) LTD.
TAIWAN SANSHIN ELECTRONICS CO., LTD.
SANSHIN ELECTRONICS CORPORATION
SANSHIN ELECTRONICS KOREA CO., LTD.
SANSHIN ELECTRONICS (THAILAND) CO., LTD.
SANSHIN ELECTRONICS (SHANGHAI) CO., LTD.
SANSHIN NETWORK SERVICE CO., LTD.

Number of non-consolidated subsidiaries: 4

Names of companies:

SANSHIN MEDIA SOLUTIONS CO., LTD.
AXIS DEVICE TECHNOLOGY CO., LTD.
SANSHIN ELECTRONICS (SHENZHEN) CO., LTD.
SAN SHIN ELECTRONICS (MALAYSIA) SDN. BHD.

Rationale for exclusion of non-consolidated subsidiaries from the scope of consolidation:

The size of each of the non-consolidated subsidiaries is small, and each company's total assets, net sales and net profit or loss (amount corresponding to equity) and retained earnings (amount corresponding to equity) are small in size and neither does significantly affect the consolidated financial statements.

The standards for judging whether or not the subsidiary has materiality are based on the past five-year average net profit or loss on the part of both the Company and the subsidiaries.

2. Application of equity method

Non-consolidated subsidiaries to which the equity method is not applied

Names of companies:

SANSHIN MEDIA SOLUTIONS CO., LTD.
AXIS DEVICE TECHNOLOGY CO., LTD.
SANSHIN ELECTRONICS (SHENZHEN) CO., LTD.
SAN SHIN ELECTRONICS (MALAYSIA) SDN. BHD.

Rationale for non-application of the equity method:

Based on each of the non-consolidated subsidiaries' net profit or loss (amount corresponding to equity) and retained earnings (amount corresponding to equity) etc., and neither does significantly affect the Company's consolidated financial statements, nor have importance as a whole, even if excluded from the subject of equity method.

The standards for judging whether or not the subsidiary has materiality are based on the past five-year average net profit or loss on the part of both the Company and the subsidiaries.

3. Matters concerning accounting methods

A. Valuation standards and methods for major assets

a. Available-for-sale securities

Other available-for-sale securities

With market value: At market value, using the fair market value at the end of this consolidated fiscal year. (Appraisal differences are dealt with by means of the direct capital influx method, with cost of securities sold calculated by means of the moving average method.)

Without market value: At cost, using the moving average method.

b. Derivatives

At market value.

c. Inventories

Merchandise: Primarily at cost, using the moving average method. (Figures stated on balance sheets are calculated by means of the write-down method based on a decline in profitability.)

Partly-finished work: At cost, using the specific identification method. (Figures stated on balance sheets are calculated by means of the write-down method based on a decline in profitability.)

B. Depreciation method for major depreciable assets

a. Property and equipment: Primarily the declining-balance method

(Excluding leased assets) However, buildings (excluding equipment and installations) are depreciated on the straight-line method. The useful life of buildings and structures is 15 to 50 years; for other property and equipment, it is 3 to 20 years.

b. Intangible assets: Straight-line method

(Excluding leased assets) The estimated useful life of software for internal use is 3 to 5 years.

c. Leased assets: Straight-line method using the lease period as the useful life and zero residual value.

C. Accounting standards for major allowances

a. Allowance for doubtful accounts:

Provided at an amount sufficient to cover probable losses on collection. It consists of the estimated uncollectible amount with respect to certain identified doubtful receivables and an amount calculated using the rate of actual collection losses with respect to the remaining receivables.

b. Allowance for bonuses to employees:

Allowance for employees' bonuses is provided at an amount applicable to this consolidated fiscal year based on the estimated amount to be paid in the next year.

c. Allowance for bonuses to directors and Audit & Supervisory Board members:

Allowance for directors' bonuses is provided at an amount applicable to this consolidated fiscal year based on the estimated amount to be paid in the next year.

D. Major foreign currency transactions

Receivables and payables denominated in foreign currencies are translated into Japanese yen at the consolidated-fiscal-year-end spot market exchange rates; any foreign exchange gains and losses from transactions are specified in the statement of income. Assets and liabilities of overseas subsidiaries are translated into yen at the exchange rates in effect as of the fiscal year end, and revenues and expenses are translated into yen at the average exchange rates for the fiscal year. The resulting translation adjustments are included in the foreign currency translation adjustment in net assets.

E. Significant hedge accounting

a. Hedge accounting methods:

Primarily the deferred hedge accounting method

Hedge accounting is adopted for foreign currency receivables and payables, etc. on exchange forward contracts.

b. Hedging instruments and hedged items:

Hedging instrument: Foreign currency forward contracts

Hedged items: Both payables and receivables, and forecasted transactions denominated in foreign currencies

c. Hedge policy:

The Company uses foreign currency derivatives as a means of hedging exposure to foreign currency risk. Such transactions are all carried out with the finance department of the Company as the lead department, according to Company regulations. The Company does not enter into derivatives for trading or speculative purposes not stated in its regulations.

d. Hedge effectiveness assessment:

Hedge effectiveness is evaluated at least every six months by evaluating whether the cash flow changes in the hedged item and cash flow changes in the hedge instrument cancel each other out at a high level.

F. Accounting standards for net defined benefit liability

Net defined benefit liability is provided in the amount equal to the benefit obligations minus the pension assets based on the projected amount at the end of this consolidated fiscal year, in order to prepare for the allowance for employees' severance and retirement benefits. The retirement benefit obligations are calculated using a payment calculation standard which is a method of attributing projected retirement benefits for the service period up to the current consolidated fiscal year.

The prior service expenses are amortized by the straight-line method for a given number of years (10 years) within employees' average remaining years of service, at the time of occurrence. The actuarial gains and losses are amortized in the year subsequent to their occurrence, by the straight-line method or a given number of years (10 years) within employees' average remaining period of service.

Unrecognized actuarial gains and losses and unrecognized past service expenses are reflected in remeasurements of defined benefit plans in the accumulated other comprehensive income of net assets, after adjusting for tax effects.

G. Consumption tax and similar taxes

Excluded from transaction amounts for the Company and its consolidated domestic subsidiaries.

Notes to Changes in Accounting Principles

(Application of the Accounting Standards for Business Combinations)

We have adopted the “Accounting Standards for Business Combinations” (Corporate Accounting Standards No. 21, September 13, 2013), the “Accounting Standards for Consolidated Financial Statements” (Corporate Accounting Standards No. 22, September 13, 2013), and the “Accounting Standards for Business Divestitures” (Corporate Accounting Standards No. 7, September 13, 2013), effective from the consolidated fiscal year under review. Accordingly, we have made changes in the disclosure of the net profit, as well as in the reporting for minority interests, which appear now as “non-controlling interests.”

Notes to Changes in the Presentation Method

(Consolidated Balance Sheets)

“Electronically recorded monetary claims,” which had been included in “Notes and accounts receivable-trade” under “Current assets” section until the previous fiscal year, is now reclassified, as its monetary importance has increased during the fiscal year under review.

In this regard, the amount of “Loss on sales of electronically recorded monetary claims” in the previous consolidated fiscal year was 492 million yen.

Notes to the Consolidated Balance Sheets

1. Accumulated depreciation of property and equipment ¥ 5,206 million
 2. Liabilities for guarantees

Guarantees for bank borrowings

Employees*

¥46 million

* Of loan guarantees to financial institutions concerning employee's borrowings to acquire housing, the portion to which home loan insurance applies has almost no risk attached and thus is excluded from liabilities for guarantees.

Notes to the Consolidated Statement of Changes in Shareholders' Equity

1. Matters concerning types and numbers of outstanding shares and treasury shares

	No. of shares at the beginning of Fiscal 2015 (consolidated)	Increase in no. of shares during Fiscal 2015 (consolidated)	Decrease in no. of shares during Fiscal 2015 (consolidated)	No. of shares at the end of Fiscal 2015 (consolidated)

Total	1,102,116	360	—	1,102,476

Note: The Common stock increased by 360 treasury shares due to the purchase of 360 odd-lot shares.

2. Matters concerning dividends

A. Payment of dividends

Resolution	Type of shares	Total amount of dividends (¥million)	Dividends per share (¥)	Record date	Effective date
The Ordinary General Meeting of Shareholders on June 19, 2015	Common shares	845	30	March 31, 2015	June 22, 2015
The Board of Directors Meeting on November 5, 2015	Common shares	281	10	September 30, 2015	December 1, 2015

B. Out of dividends whose record date is within this consolidated fiscal year, those for which the effective date will come after the end of this fiscal year

Resolution	Type of shares	Total amount of dividends (¥million)	Sources of dividends	Dividends per share (¥)	Record date	Effective date
The Ordinary General Meeting of Shareholders on June 24, 2016 (scheduled)	Common shares	845	Retained earnings	30	March 31, 2016	June 27, 2016

Financial Instruments

1. Matters concerning the state of financial instruments

(1) Policy Initiatives for Financial Instruments

The Group operates fund management by operating with safe and secure financial instruments, and primarily performs fund procurement through bank loans. Derivatives are used to avoid the risk of exchange rate fluctuations, and we do not perform speculative trading.

(2) Financial instruments, Risks Involved and Risk Management Systems

Notes and accounts receivable, which are operating receivables, are exposed to customer credit risks. Operating receivables in foreign currency, which arise from our efforts to globally expand business, are also exposed to the risk of exchange rate fluctuations. Regarding customer credit risk, in accordance with company regulations, we have established systems for performing term administration and balance management, as well as regularly evaluating major clients' credit statuses. As for exchange rate fluctuation risks, we use forward exchange contracts to offset any risks that these may pose towards our netted position of notes and accounts payable in mainly foreign currency.

Shares, which are investment securities, are exposed to the risk of fluctuations in market values, although these are mainly shares in companies that we have business relations with, and periodically evaluated market values are reported to the board of directors.

Notes and accounts payable, which are business debts, all have a payment deadline of within one year. Although some of these are exposed to exchange rate fluctuation risks, as a result of being derived from imports from overseas and therefore being in foreign currency, we perform risk management for our netted position of operating receivables in the relevant foreign currency.

Loans are mainly funds procured for business transactions. Although floating-rate borrowings are exposed to interest rate fluctuation risks, the Group manages these by distributing repayment dates so that short term loans may be repaid flexibly when there is a financing surplus.

Regarding execution and management of derivatives transactions, the Group complies with company regulations specifying authority to perform transactions, and when using derivatives, in order to reduce credit risk we only deal with high-rating financial institutions.

Business debts and loans are also exposed to liquidity risks. However, the Group manages this through methods such as having each company produce monthly financing plans.

(3) Further Notes on Matters Concerning Market Values of Financial Instruments

Market values of financial instruments include values based on market prices, or, where no market price exists, reasonably calculated values. Because variable factors are incorporated in the calculation of these values, the values may change when different assumptions are used.

2. Items Concerning Market Values of Financial Instruments

Consolidated balances sheet amounts, market values and their differences, as of March 31, 2016, are as outlined below. Items for which it was deemed prohibitively difficult to evaluate market value are not included in the following table. (see Note 2)

Millions of yen

	Amount stated on Consolidated Balance Sheets (*1)	Market value (*1)	Difference
(1) Cash and deposits	10,186	10,186	—
(2) Notes and accounts receivable-trade	44,852	44,852	—
(3) Electronically recorded monetary claims	10,272	10,272	—
(4) Accrued income	185	185	—
(5) Investment securities	1,329	1,329	—
(6) Notes and accounts payable-trade	(22,282)	(22,282)	—
(7) Short-term loans payable	(6,408)	(6,408)	—
(8) Accrued corporate tax, etc.	(180)	(180)	—
(9) Derivative transactions (*2)	(721)	(721)	—

*1: Numbers in parenthesis indicate liabilities.

*2: Net credits and debts arising from derivatives trading are displayed as net values.

Notes: 1. Methods used for calculating market values of financial instruments, and items concerning securities and derivatives trading

(1) (1) Cash and deposits, (2) Notes and accounts receivable-trade, (3) Electronically recorded monetary claims and (4) Accrued income

As these are settled quickly, their market value is roughly equal to their book value, and therefore they are determined by the relevant book value.

(5) Investment securities

With these market values, share prices are those given by the Stock Exchange.

(6) Trade notes and accounts payable, (7) Short-term loans payable and (8) Accrued corporate tax, etc.

As these are settled quickly, their market values are almost equal to book values, and therefore they are determined by the relevant book value.

(9) Derivative transactions

Market value is measured by the price or other information provided by client financial institution, etc.

2. Financial instruments for which it is deemed prohibitively difficult to evaluate market value

With unlisted shares (recorded at ¥213 million in the consolidated balance sheet), because there are no market values, and evaluating their value is deemed prohibitively difficult, these are not included in “(5) Investment securities.”

Notes to Non-consolidated Financial Statements

1. Notes to Matters concerning Significant Accounting Principles

A. Valuation standards and methods for assets

a. Valuation standards and methods for available-for-sale securities

Shares of subsidiaries and affiliates:

At cost, using the moving average method.

Other available-for-sale securities:

With market value: At market value, using the fair market value at term-end. (Appraisal differences are dealt with by means of the direct capital influx method, with cost of securities sold calculated by means of the moving average method.)

Without market value: At cost, using the moving average method.

b. Valuation standards and methods for derivatives

At market value.

c. Valuation standards and methods for inventories

Merchandise: At cost, using the moving average method. (Figures stated on balance sheets are calculated by means of the write-down method based on a decline in profitability.)

Partly-finished work: At cost, using the specific identification method (figures stated on balance sheets are calculated by means of the write-down method based on a decline in profitability.)

B. Depreciation method for non-current assets

a. Property and equipment: Declining-balance method

(Excluding leased assets) However, buildings (excluding equipment and installations) are depreciated on the straight-line method.

Estimated useful lives are generally as follows:

Buildings: 15-45 years

Structures: 15-50 years

Vehicles: 4 years

Equipment: 4-20 years

b. Intangible assets: Straight-line method

(Excluding leased assets) The estimated useful life of software for internal use is five years.

c. Leased assets: Straight-line method using the lease period as the useful life and zero residual value.

C. Accounting standards for allowances

a. Allowance for doubtful accounts:

Provided at an amount sufficient to cover probable losses on collection. It consists of the estimated uncollectible amount with respect to certain identified doubtful receivables and an amount calculated using the rate of actual collection losses with respect to the remaining receivables.

b. Allowance for bonuses to employees:

Allowance for employees' bonuses is provided at an amount applicable to this term based on the estimated amount to be paid in the next term.

c. Allowance for bonuses to directors:

Allowance for directors' bonuses is provided at an amount applicable to this term based on the estimated amount to be paid in the next term.

d. Employees' severance and retirement benefits:

The Company makes provision for the necessary amount of allowance for employees' severance and retirement benefits deemed to accrue during the term, based on the Company's payment obligation and the pension fund balance at the term-end. The retirement benefit obligations are calculated using a payment calculation standard which is a method of attributing projected retirement benefits for the service period up to the current business year.

The prior service obligation is amortized by the straight-line method for a given number of years (10 years) within employees' average remaining years of service.

The actual gain or loss is amortized, from the year following the year in which the gain or loss is recognized, by the straight-line method or a given number of years (10 years) within employees' average remaining period of service.

D. Foreign currency transactions

All foreign-currency-denominated receivables and payables are converted into Japanese yen at the term-end spot market exchange rate; any foreign exchange gains and losses from transactions are specified in the statement of income.

E. Hedge accounting

a. Hedge accounting method

Deferred hedge accounting method

Hedge accounting is adopted for foreign currency receivables and payables etc. on exchange forward contract

b. Hedging instruments and hedged items:

Hedging instrument: Foreign currency forward contracts

Hedged items: Both payables and receivables, and forecasted transactions denominated in foreign currencies

c. Hedge policy:

The Company uses foreign currency derivatives as a means of hedging exposure to foreign currency risk. Such transactions are all carried out with the finance department of the Company as the lead department, according to Company regulations. The Company does not enter into derivatives for trading or speculative purposes not stated in its regulations.

d. Hedge effectiveness assessment::

Hedge effectiveness is evaluated at least every six months by evaluating whether the cash flow changes in the hedged item and cash flow changes in the hedge instrument cancel each other out at a high level.

F. Consumption tax and similar taxes

Consumption tax and local consumption tax are excluded from transaction amounts.

2. Notes to Changes in the Presentation Method

(Non-Consolidated Balance Sheets)

Downward revision to deferred tax assets at term-end due to changes in the taxation rates	4.2%
Other	0.0%
Effective income tax rate after the adoption of tax-effect accounting	34.2%

(3) Modification to the amount of deferred tax assets and liabilities due to changes in corporate taxation rates

Following the promulgation of the “Act for Partial Revision of the Income Tax Act, etc.” (Act No. 15/2016) and “Act for Partial Revision of the Local Tax Act, etc.” (Act No. 13/2016) on March 29, 2016, the corporate income tax rate will be reduced from the fiscal year started on April 1, 2016. In accordance with this reform, the effective statutory tax rates, which are used to measure deferred tax assets and deferred tax liabilities, shall be reduced from 32.3%, the rate used for calculation in the previous fiscal year, to 30.9% for temporary differences that are expected to be eliminated during the fiscal years started on April 1, 2016 and the fiscal year starting on April 1, 2017, and to 30.6% for those that are expected to be eliminated on or after April 1, 2018.

As a result of this change in the tax rate, the amount of deferred tax assets (the amount of deferred tax liabilities is deducted) decreased ¥48 million, while income taxes-deferred, valuation difference on available-for-sale securities and deferred hedge losses increased by ¥42 million, ¥9 million and ¥15 million, respectively.

Responsibility of the Company's management for preparation of consolidated financial statements

The responsibility of the Company's management is to prepare and fairly present these consolidated financial statements in accordance with accounting standards generally accepted in Japan. This includes designing and operating internal control judged by management as necessary to prepare and fairly present consolidated financial statements that are free from material misstatements due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit from an independent perspective. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we design the audit plan and perform the audit accordingly to obtain reasonable assurance about whether these consolidated financial statements are free from material misstatements.

An audit includes performing procedures to obtain audit evidence supporting the amounts and disclosures in these consolidated financial statements. Audit procedures were selected and applied on the basis of our judgments, including the assessment of risk of material misstatements in consolidated financial statements due to fraud or error. In making this risk assessment, we have considered the Company's internal control relating to the preparation and fair presentation of these consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the presentation of these consolidated financial statements taken as a

whole, including accounting policies used by management, their application, and accounting estimates made by management.

We believe that the audit evidence we have obtained is sufficient and appropriate, and provides a reasonable basis for our opinion.

Auditor's opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position and results of operations of Sanshin Electronics Co., Ltd. and its consolidated subsidiaries for the related consolidated fiscal year, and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in Japan.

Interest relationships

There are no interest relationships either between the Company and our audit corporation or between the Company and the Designated Employees and Engagement Partners that are required to be reported by the Certified Public Accountant Law.

Reference Materials for the General Meeting of Shareholders

Item 1: Payment of year-end dividends of surplus

The Company's basic policy concerning profit allocation is to make decisions with consideration given to expanding profits for returning to shareholders and shoring up internal reserves. Under this policy, we aim to continually provide steady dividends to shareholders, and strive towards increased dividends, with a dividend payout ratio of around 50% of net profit for this consolidated fiscal year. Under this policy, for the year ended March 31, 2016, the year-end dividends that we will offer will be as outlined below.

1. Type of dividends

Cash

2. Allocation and total of year-end dividends

We propose to pay a year-end dividend of ¥30 per share, with the total payment of ¥845,366,910. (Combined with the already paid interim dividend, annual dividend thus becomes ¥40 per share.)

3. Date of commencement of payment of dividends of surplus

June 27, 2016.

Item 2: Appointment of Twelve (12) Directors
